desktop.Q: JQuery: Show/Hide div based on radio buttons (single or multiple) I am working on a property website, in which some property has more than 1 room. I want to be able to hide/show rooms based on radio button selection. This is what I have tried. Javascript is adding multiple selects and one hidden fields. JQuery is being read as 2 different selectors (invalid selectors?). Basically trying to hide the rooms of the property that user is in. Tried this: Javascript (JS) `$('input[name="Room"]:radio').change(function() { var str = $(this).val(); if ($(this).val() == "1") { $("#M" + str).show(); } else { $("#M" + str).hide(); } });` CSS `.hidden { display: none; }` The HTML
